### BENEFITS

---

#### Simple to use controls

The well-designed rotary dial saves time and reduces confusion. Simply rotate it to select your desired program.

#### A faster wash

When you're in a hurry or only have a partial load to wash, the Quick 30 program is the perfect choice. This 60-degree wash ensures sparkling dishes every time.

---

#### Saves water

With today's climate challenges, we need to do what we can to save water. That's why we offer 4-star WELS water rated dishwashers that only use 11.7 litres of water, just a fraction of the water you will use when hand washing dishes.

#### More stable with soft spikes

Now you can prevent glasses from falling over, breaking or cracking in the dishwasher. Our clever soft spikes help keep your glasses stable and reduce the likelihood of breakages.

---

#### Load sensing

Load sensing optimises your energy usage. Each load is assessed and adjusted on a wash by wash basis.
